DREAMY 280 - What's in the name?

Dennis and Lisa were raised as local farm kids. We purchased our 280 acre farm in 1989. It was always our dream to raise our children on a farm just as we were raised; hence the name, "Dreamy 280". With a lifetime of experience, we raise beef that consumers desire and seek out. We direct market beef from our farm store and at local farmers markets. Dreamy 280 offers all retail cuts, 1/4 and 1/2 beef, and a flexible beef CSA program. All products are available year-round.

DREAMY 280 Farm Fresh Meats, LLC

We believe in building lasting relationships between the consumer-you, and the farmer-us. By purchasing our meat you are providing your family with healthy, fresh beef and you are supporting a local family farm.

We are proud of our farm and our animals are given the utmost of care and respect. We feel that it is our responsibility to be good stewards of the land and implement sustainable beef raising practices. Our cattle have constant access to grass or forage with a mixture of grains. They receive a clean water supply and their shelters are well maintained with bedding. The beef we produce is humanely raised without animal by-products, hormones, or antibiotics.
